ASSIST STREET

AI ASSISTANTS FOR LOCAL BUSINESSES

Your front desk never closes.

An assistant on your website that answers customers' questions instantly, day and night, in their own language, and sends you the enquiries that are ready to act on. We set it up and look after it for you.

Customers don't wait

- Most people look you up in the evening or at the weekend, when nobody is there to reply.
- If they don't get an answer quickly, they message the next business on Google.
- Your team spends hours answering the same questions about prices, times and availability.

What you get

- Instant answers from your own prices, services and opening hours, never made up
- Replies in the customer's language: English, Bengali, Arabic, Spanish and many more
- The customer's name, contact details and what they need, emailed to you
- Anything it can't answer goes straight to you, and every conversation is in your dashboard

Live in a week, in three steps

1. **Tell us about your business**
   A 15-minute chat, or send us your price list and FAQs.
2. **We build and test it**
   With your information, in your colours.
3. **You get the enquiries**
   By email, ready to call back, book or quote.

We can also follow up leads automatically and build your website. Booking and WhatsApp assistants are coming soon.

EXAMPLE CHAT, 11:42PM

Hi, how much is a check-up? Do you have anything on Saturday?

A check-up is £45 for new patients. We're open Saturdays 9am to 1pm. Shall I ask the team to book you in? What's your name and number?

New enquiry: check-up, Saturday morning, new patient. Name and mobile included.

Free for 30 days

We set it up on your website for free. No contract, no card. At the end we show you every conversation it had. If it isn't worth it, we take it down.

Essentials Assistant, alerts and dashboard	**£75 / month** + £200 setup
Managed We keep it updated, monthly report	~~£200~~ **£150 / month** + £400 setup, first 10 clients

Try it now
